AESTHETIC SERVICES

WE ARE MORE THAN *JUST* A SPA

We are not just a spa, we are a full-service Skin and Cosmetic Center, featuring MD-supervised estheticians and nurse injectors who are fully trained in a variety of products and advanced treatments.

NID SPA CLUB

For the latest specials, text **SPACLUB** to **(833) 713-1901**. As part of the NID Spa Club, you will receive exclusive deals on our premium spa services. *You deserve it!*

North Idaho Dermatology is dedicated to providing the highest standard in cosmetic procedures. Our broad spectrum of treatments and procedures are medically supervised by our fully trained and qualified doctors, physician assistants, nurse practitioners, nurse injectors, and licensed estheticians.

A credit or debit card must be validated in order to schedule a spa appointment. If you cannot keep your appointment, a minimum of a 24 hours notice is required to cancel or reschedule, otherwise a \$75 fee will be applied.

INJECTABLES

Neurotoxin Injections

Botox and Dysport are FDA- approved injections that are used to relax muscles in targeted areas. This treatment lasts an average of 3-4 months.

Botox.....\$12/unit

Dysport\$4/unit

Dermal Filler Injections

Dermal fillers are composed of a hyaluronic acid based gel that closely resembles the natural hyaluronic acid found in our skin. These fillers are FDA-approved and can replace volume loss in cheeks, lips, and deep facial lines around the mouth. Our Allergan and Galderma trained injectors will make recommendations on which products are used based on your individual needs. Request a consultation to discuss pricing.

Volbella (.55ml)

Restylane Silk

Volbella (1.0ml)

Restylane Refyne/Defyne

Vollure (1.0ml)

Restylane L

Voluma

Restylane Lyft

Juvederm ultra/ultra plus

Restylane Kysse

PDO Threads

PDO Threads is a minimally invasive procedure that can aid in lifting and smoothening areas of the face. It is introduced into the deeper layers of the skin which then allows the thread to be lifted, achieving a non surgical face or neck lift. Request a consultation to discuss pricing.

PRP Injections

PRP is a procedure that utilizes the clients own platelet-rich plasma to rejuvenate skin and promote collagen production. The treatment can be used in combination with microneedling and injections. This is done in specific areas to improve collagen and areas with volume loss and also assist with certain types of hair loss.

Facial Injections (6mL).....\$800 *Hair Injections*.....\$800

FACIAL TREATMENTS

Receive a facial designed for your specific skin needs, using corrective products.

Personalized Facial.....\$200

You will receive a deep steam cleansing with an antibacterial wash, the skin is then gently exfoliated to assist in the extraction process to clear the skin's pores. You will then receive a personalized mask to calm the skin. There will be a calming massage to help relax the neck, shoulders, and facial muscles which will promote oxygen and blood flow to the skin, which will in turn reduce swelling and improve your overall skin's appearance. Finally, you will leave with moisturizing sun protection.

Exfoliation Treatments

DiamondGlow™ is more than a facial. Unlike traditional wet facial treatments, DiamondGlow's™ patented recessed diamond tip wand delivers a next-level resurfacing treatment that deeply cleans and rejuvenates the skin with targeted SkinMedica® Pro-Infusion Serums.

DiamondGlow\$300

with TNS Advanced + Serum.....\$350

DiamondGlow Facial.....\$400

Facial with TNS Advanced + Serum\$450

Dermaplane.....\$100

Dermaplaning is a manual exfoliation technique that removes superficial dead skin cells with a custom dermaplaning blade. You will have a smooth feel to your skin as well as an increased ability to absorb topical products

Chemical Peels

Our chemical peel blends contain a variety of beneficial ingredients to help treat aging skin, acne, rough texture, skin discoloration, and fine lines and wrinkles. Downtime results may vary from light flaking to more extensive “sheet” peeling.

NID Peel\$200

Zo Skin Health utilizes a blend of exfoliants, retinol, and multi-action agents to help improve skin health and treat many signs of aging.

ZO Skin Health - Stimulator Peel\$200

ZO Skin Health - 3 Step Peel\$350

Retinoid peels use a combination of retinol and special extracts to smooth, brighten, and even skin tone through increased cell turnover and chemical exfoliation.

6% Retinol Peel\$250

Elite Chemical Peel\$300

Microneedling

Microneedling is a procedure that uses fine needles to create a controlled injury in the skin. This treatment encourages collagen production and can significantly improve skin texture with little to no down time.

Microneedling Face\$350

Microneedling Face, Neck & Chest\$650

PRP

PRP is a procedure that utilizes the clients own platelet-rich plasma to rejuvenate skin and promote collagen production. The treatment can be used in combination with microneedling and injections done in specific areas to improve collagen and volume loss.

PRP Microneedling Face \$600

PRP Microneedling Face, Neck, & Chest..... \$900

Add-Ons

Brow Tinting\$20

Brow Waxing\$30

Lip Waxing\$20

Lash Tinting\$30

ZO Serum Accelerators.....\$100

CORRECTIVE LASERS

The **CO2RE laser** is a fractional laser that resurfaces and tightens the skin. This procedure eliminates signs of aging such as fine lines, wrinkles, and pigmentation from sun damage. The treatment can also improve single scars or acne scarring. When used at a moderate depth, the CO2 can provide skin resurfacing and improve signs of aging with half the downtime of the full treatment.

|-------------------------|----------------|
| <i>Full Face</i> | \$4,500 |
| <i>Acne Scars</i> | \$2,000 |

Vascular laser

Vascular laser is used to treat spider veins, red spots, rosacea, and other lesions of the skin with excellent and consistent results. Request a consultation to discuss pricing.

PicoCare

The PicoCare laser treats a variety of age-related skin conditions such as freckles, sunspots, wrinkles, and fine lines. Acne scars and large pores can also show significant improvement with treatment. PicoCare doesn't burn the outer layers of the skin, which minimizes discomfort, reduces redness and allows a return to normal activity within hours of receiving the treatment. Areas that are not listed require a consultation to receive an accurate price quote.

CORRECTIVE BODY TREATMENTS

Kybella

Kybella is the only FDA-approved injectable treatment that destroys fat cells in the area under the chin to improve your profile. This service is permanent and a minimum of two treatments, 4 to 6 weeks apart, is recommended to achieve desired results. Request a consultation to discuss pricing.

QWO

QWO is the first and only FDA approved injectable prescription medicine used to treat moderate to severe cellulite in the buttocks by injections. 3 treatments are necessary to see optimal results. Request a consultation to discuss pricing.

CoolSculpting

The ground-breaking CoolSculpting technology uses a patented cooling process to target and eliminate fat cells, without surgery, needles, or downtime. This procedure is highly effective in targeting fat cells without damaging to other cells and tissue. Request a free consultation to discuss your options and pricing.

Sclerotherapy

Asclera is a prescription medicine that is used in a procedure called sclerotherapy to treat two types of veins in your legs.

- *Uncomplicated spider veins*
- *Uncomplicated small varicose veins known as reticular veins.*

Asclera is a sclerosing agent that is injected into the vein. It works by damaging the inside lining of blood vessels, causing blood platelets and cellular debris to attach to the lining of the vessels. Eventually, cellular debris and platelets cause the blood vessel to clot. Over time, the clotted vein will be replaced with tissue. Request a consultation to discuss pricing.
